## EDUCATION

**Dayananada Sagar College Of Engineering** — Bangalore, India
*Bachelor of Engineering - Information Science and Engineering : GPA:8.85* — Dec 2020 - Oct 2024

**Atomic Energy Central School-1** — Jaduguda ,India
*Pre University-PCMB Stream : Percentage:89.2* — April 2019 - Mar 2020

**Atomic Energy Central School-1** — Jaduguda ,India
*SSLC : Percentage:92.2* — April 2017 – Mar 2018

## PROFESSIONAL EXPERIENCE

**Elspectra — Frontend-Developer intern** — March 2023 - May 2023
*Bangalore, India*

- Implemented responsive and user-friendly UI components using Redux-Toolkit, NextJS, emotion.sh and integrated Rest API. Allowed professionals to bring out the best of their capabilities, offerings, case studies, and insights through content and frameworks/products to develop & manage content.
- Implemented Storybook for automating visual testing, developing and testing UI components in an isolation and to test validation, interaction, accessibility, etc.
- Contributed to the creation and maintenance of a comprehensive style guide and component library, streamlining development and ensuring a consistent user interface.
- Led the charge in enhancing website performance, achieving a remarkable 18% improvement.

## PROJECTS

**Youtube Clone** | *React, Rapid api, GitHub actions* — March 2022 - March 2022

- Developed a full-stack React web app integrated with Rapid API for smooth video browsing and playback. Included sections for trending content in gaming, movies, and music with real-time video statistics from the YouTube API.
- Implemented GitHub Actions for efficient CI/CD, streamlining the development workflow.
- Deployed link: https://nate-tube.netlify.app

**Cryptotracker Portfolio** | *React, Coingecko, ChakraUI* — Dec 2023 - Jan 2023

- Developed a React-based cryptocurrency portfolio website with Chakra UI, featuring real-time data from CoinGecko API.
- Utilized AWS (S3 and CloudFront) for scalable data management and distribution.
- Integrated Chart.js for 10-year profit/loss visualization and implemented user authentication via Firebase.
- Deployed link:http://cryptracker.s3-website.ap-south-1.amazonaws.com/signup

**iPhone Startup Page** | *React.js, Three.js, GSAP* — Jan 2023 - Feb 2023

- Designed and developed an attention-grabbing iPhone startup webpage.
- Leveraged cutting-edge technology by seamlessly integrating a 3D model of the iPhone using Three.js, utilizing GSAP animations to guide users through a dynamic exploration of various iPhone specifications.
- Deployed link:https://apple-clone-lake.vercel.app/

## TECHNICAL SKILLS

**Languages**: C/C++, SQL, JavaScript, HTML/CSS, MongoDB, REST API
**Frameworks**: React.js, Next.js, Node.js, Express.js, Pug, JQuery, Material-UI, FastAPI, Tailwind, Chakra UI,
**Developer Tools**: PostgreSQL, Postman, Git, GitHub, Visual Studio, Atlas, Figma, Firebase
**Soft Skills**: Time Management, Teamwork, Problem solving, Documentation, Engaging Presentation.

## HONORS AND AWARDS

**Coding platforms**: Solved 100+ problems on Leetcode and codestudio.
**Hack-a-League Hackathon**: This is on selection based participation, where I got selected as participant and attended 24 hours of offline hackathon
**Hacktober fest**: Participated in Hacktober fest and successfully completed the tasks by contributing to open source projects.
